I have a U S Silver Dollar of 1795 in a good state of preservation. Except for a small hole punched in it. Evidently used for a ring. Is it worth anything & if so how much, to numismatists or others?

I also have a few old with persons Spanish & Mexican Silver Dollars. Are they worth 144 cents?

Dr. Sir

I have a U.S. Silver Dollar of 1795 in a good state of preservation. Except for a small hole punched in it. Evidently used for a ring. It is worth anything & if so how much to numismatists or others?

I also have a good old well preserved Spanish or Mexican Silver Dollars. Are they worth 100 cent?
